

Submitted by Alice Kinter, Chair of the Village's Parks Committee  
January 27, 2011

1. We would like to submit a request to the Board at the February 14th meeting to extend the name of the Parks Committee to The Parks and Green Spaces Committee.

This name was suggested by Susie Eig, a member of the Parks Committee. The Parks Committee does not deal with areas that are the responsibility of the Tree Committee.

The Parks Committee takes care of the following:

The large triangle park at Oliver and Kirkside

The small triangle park at Oliver and Cedar Parkway

Laurel Park and its northern extension

The green spaces around the Village Hall

The Right of Way at W.Kirke/Laurel Parkway

The Buffer Zone adjacent to Friendship Heights (Belmont Park)

The Right of Way at Hesketh and Kirkside

Brookville Road Park south of Quincy Street

The boxwood area at Chevy Chase Circle

These areas include more than parks. It would be more appropriate, therefore, to have that reflected in the committee's name.

2. Two benches will be placed in the small triangle park at Oliver/ Cedar Parkway. This is in response to the neighbors' request when they answered the summer 2009 questionnaire circulated by the Parks Committee.
